Marshal Mutisi

Profile

Computer Science student and aspiring AI Automation Developer with experience in full-stack web development and database systems, focused on building smart, efficient, and AI-driven digital solution

Education

BSc Computer Science
IU International University of Applied Sciences, Germany

Jun 2023 - Present

Employment

Full Stack Development Intern
Landsiedel NLP Training (Remote), Germany

Jan 2025 - Jun 2025

- Developed responsive web interfaces with HTML/CSS and built dynamic applications using PHP/MySQL for various projects
- Transformed business requirements into technical solutions through cross-departmental collaboration
- Enhanced online visibility by creating SEO-friendly content with AI tools

Projects

Learning Path Tracker
Learning Management System for Developers

Sep 2025 - Oct 2025

- Built a learning management web app with authentication, analytics dashboard, and real-time progress tracking
- Optimized performance and deployed on Vercel
- Reduced learning organization effort by ~50%

Pizza Shop Website
Responsive e-commerce website

Aug 2025 - Aug 2025

- Developed a responsive e-commerce platform with authentication, cart, orders, and user profiles

n8n Self-Annealing System
AI-powered system that monitors and auto-fixes n8n workflows.

Jan 2026 - Present

- A robust AI-powered monitoring and self-healing system for n8n workflows. Combines a FastAPI backend, Next.js dashboard, and Google Gemini-powered Agentic AI to detect, analyze, and automatically fix workflow errors in real time, while learning from past failures to improve stability.

LingoAcademic AI (Multi-Agent Research Pipeline)
3-agent AI system automating English-German academic research.

Jan 2026 - Feb 2026

- A premium 3-agent AI system (Librarian, Writer, Professor) that automates English-to-German academic research, drafting, and auditing. Features robust model fallback with Gemini, automatic grounding in German sources, and a Next.js + FastAPI dashboard for real-time monitoring and seamless workflow management.

AI Automation Workflow Suite (n8n)
n8n workflows for AI and automation

Oct 2025 - Nov 2025

- Designed AI-powered automation workflows for customer support, implementing APIs, webhooks, and RAG pipelines.
